

Senior or Principal Consultant

Environmental Policy and Economics

Location: Brussels

The Company

Three sister companies - Air Quality Consultants Ltd, Noise Consultants Ltd and Logika Consultants Ltd – together form the Logika Group of Companies; the oldest (Air Quality Consultants) having been trading for 30 years. We comprise around 110 environmental experts based in the UK and continental Europe, with the three companies managed by a single senior leadership team. We see flexibility and collaboration as essential to our continued success and we manage the Group of companies as if a single entity. We provide people with the opportunity to progress and work on interesting projects with a wide range of valued clients who operate in a variety of sectors.

In 2020, we established an Environmental Policy and Economics Practice that works horizontally across the group. This part of our business provides high quality policy advice, strategic insight, scientific, policy and economic analysis in a range of environmental policy areas. These include air quality and emissions, noise, chemicals, climate change, circular economy, waste and water policy. Further details can be found here: [environmentalpolicyandeconomics.com](https://www.environmentalpolicyandeconomics.com).

Our aim is to be at the forefront of the development and implementation of environmental policy, for international bodies, governments, businesses, and NGOs. We are involved in a number of high profile and challenging studies for clients which include the European Commission, international development banks, environmental NGOs, the UN as well as industry trade associations and companies. We provide technical, scientific, and socio-economic advice, based on objective, impartial and evidence-based analysis.

The Role

We have recently established a Brussels based part of the business to accelerate growth of the company outside of the UK. We are now looking for an addition to the team to support our new office in Brussels and to help the growth of the group across Europe. If you have a keen interest in environmental policy; are able to analyse and interrogate data; communicate clearly both verbally and in writing and have the skills and enthusiasm, then we want to hear from you.

This is an exceptional opportunity at an exciting time both for our business and for international environmental policy. You will work autonomously, have client facing opportunities, be involved in the development and implementation of the strategy of the new company, play a key role in business development and writing winning bids. You will play a key role in the delivery of our work.

In return you will be given extensive support from the wider business, play a visible role in a growing organisation committed to further growth. This is a superb opportunity for an ambitious policy professional ready to take on a new challenge and accelerate your career.

Skills and experience we are looking for

- A keen interest in furthering your career in environmental policy and economics
- Prior experience in the development, assessment, evaluation, or appraisal of environmental policy

for international bodies, government and / or industry clients.

- This may have been achieved via in a consultancy, government, research agency/think tanks, NGO or private sector / industry organisation.
- Demonstrable experience in national/international environmental policy development and implementation in at least one of following topics: climate change, chemicals, circular economy, air quality, industrial emissions, waste and/or water.
- Excellent communication skills and ability to write clear and concise reports in English.

Desirable:

- Understanding of policy priorities of the European Commission and its Agencies and/or other national or international institutions in the field of environmental policy.
- Mathematical / quantitative analysis, data / statistical modelling skills.
- Analytical / economic techniques such as: survey design and execution; market analysis socio-economic analysis; regulatory impact assessment.
- Familiarity with European Commission's Better Regulation Guidelines and/or understanding of the development of public policy and the methods for assessing the economic and environmental impacts of government action.
- Familiarity with national / international sources of government and business statistics.
- EU language capabilities would be welcome, in particular French.
- The ability to represent the company at meetings and other events

What we offer

We are a growing Group of companies that wants to do things differently, with an exciting future that will help you shape and realise your ambitions. You will have a great opportunity to work with a talented and dedicated team and be able to develop your career as the company grows.

Alongside a competitive salary, bonus scheme and benefits package, we support our employees through wellbeing programmes. These include trained mental health first aiders and readily available support through our Employee Assistance programme.

The Equal Opportunities Policy is to ensure that no applicant receives less favourable treatment on the grounds of age, disability, gender, reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation..

How to apply

If you have any questions on the role and/or group and would like to discuss them then please reach out directly to Ben Grebot (BenGrebot@LogikaGroup.com) and David Tyrer (DavidTyrer@LogikaGroup.com).

To apply please send a full CV and covering letter to BenGrebot@LogikaGroup.com setting out how your experience is relevant for the role and why you are interested in being considered.
