

Noise Consultants Ltd

Assistant Consultant / Consultant

Location: London and Brighton

The Company

Noise Consultants Ltd, established in 2017, has rapidly become one of the leading independent acoustic consultancies in the UK. With a wealth of experience gained at large multi-disciplinary consultancies, our senior management team has developed a reputation for delivering innovative and robust advice in a highly responsive way. Our work includes key roles on nationally significant infrastructure projects, Government policy delivery and research projects.

Noise Consultants Ltd alongside its sister companies, Air Quality Consultants Ltd and Logika Consultants Ltd, form the Logika Group of Companies. We comprise more than 110 environmental experts based in the UK and continental Europe, with the three companies managed by a single senior leadership team. We see flexibility and collaboration as essential to our continued success and we manage the Group of companies as if a single entity.

We provide people with the opportunity to progress and work on interesting projects with a wide range of valued clients who operate in various sectors.

The Role

Due to our continued growth, we are currently seeking talented and enthusiastic individuals to join our teams in London (Farringdon) and Brighton at Assistant Consultant / Consultant grade.

The successful candidate will be involved in exciting noise and vibration projects across a range of sectors including planning and development, aviation, policy and the built environment. They will have the opportunity to work with digital data, sophisticated modelling, and data science tools, and will be exposed to projects involving wider related disciplines and specialists such as air quality and climate change.

This is an exceptional opportunity at an exciting time both for our business and environmental consultancy. With us, you will be at the heart of the team and will play a key role in delivering our work. You will work in a friendly, supportive environment and will be given one-to-one support, mentoring, and learning and development from experienced colleagues.

Your day-to-day duties will include:

- Undertaking noise and vibration surveys for planning applications and building acoustic design
- Conducting environmental noise modelling work to differing standards
- Performing data analysis, calculations, predictions, assessment and reporting
- Liaising with the clients, project teams, and stakeholders
- Support with the preparation of fee proposals
- Operate independently and under guidance
- Undertake project administration

Skills and experience we are looking for

Essential

- 1 – 4 years of relevant experience
- Dynamic self-starter with attention to detail
- Good communication skills, both orally and in writing
- Strong technical capability and ability to review and interpret data
- Strong mathematical / quantitative analysis skills
- Strong organisational skills with the ability to prioritise and deliver work to tight deadlines
- High level of proficiency in using Microsoft Excel and Word
- Ability and willingness to undertake site-based and field work
- A full clean UK driving license, as travel will be required

Desirable:

- Programming experience (any languages or tools)
- Building acoustics experience

Qualifications:

- Relevant A-Levels or equivalent
- BSc or MSc in acoustics, physics or numerate subject

What we offer

You will be part of one of the most highly respected acoustic consultancy teams in the UK, involved in interesting and challenging projects in the UK and internationally.

We are a growing Group of companies that wants to do things differently, with an exciting future that will help you shape and realise your ambitions. You will have a great opportunity to work with a talented and dedicated team and be able to develop your career as the company grows.

We support our employees through wellbeing programmes and policies that support individuals. These include flexible working, trained mental health first aiders and readily available support through our Employee Assistance programme.

Furthermore, along with a competitive salary, we offer a benefits package which includes an enhanced pension scheme, death in service life cover, an annual wellbeing day and social events, and much more.

Noise Consultants Ltd's Equal Opportunities Policy is to ensure that no applicant receives less favourable treatment on the grounds of age, disability, gender, reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

How to apply

Please apply using the application form on our website – www.noiseconsultants.co.uk/careers.

If you have any questions on the role and/or group, then send them through to careers@aqconsultants.co.uk. Further information is available on our websites:
