

Climate Change Policy Director

Air Quality Consultants Ltd

Location: London, Warrington, Bristol, Brighton or Brussels

Role Location

We have offices in London, Warrington, Bristol, Brighton and Brussels.

The Company

Logika Group is a leading UK-based independent environmental consultancy, underpinned by a growing team of experts in environmental policy, strategy, design, and assessment.

With offices in London, Bristol, Warrington, Brighton and Belgium, Logika Group comprises of four specialist sister companies: Logika Consultants, Air Quality Consultants, Noise Consultants and Logika Europe with the Environmental Policy and Economics team working horizontally across the Group.

Over the last 30+ years, we have achieved sustained growth and honed our provision of high-quality services, while securing a large volume of repeat business from satisfied clients.

As such, we pride ourselves on being able to:

- Service a wide range of our clients' needs
- Employ the best people to provide the highest quality advice
- Provide a personal service
- Deliver innovative cross-disciplinary solutions
- Respond quickly and efficiently
- Offer value for money

With a proven track record of success, Logika Group has been involved with UK Government expert groups and European Commission working groups, provided expert evidence at Public Inquiries, and helped clients gain planning consent for thousands of projects.

The Role

This will be the key senior role across the company for our climate policy related work, with responsibility for strategic development, leading the growing climate policy team, winning and delivering projects and collaborating across the company. The company has been working with a range of clients in this space including advising a major multinational philanthropic donor on the cost-effectiveness of their climate investments, working with governments on economic incentives for climate mitigation and various studies for the European Commission. For the latter, we have just secured our place on a major, four year climate policies support framework with DG Climate Action. The Director will be responsible for building on our existing portfolio and skillsets to target further work for existing and new clients in the UK and overseas, including the UK and international Governments, development banks, philanthropic funders and other agencies.

We are a growing and independent organisation with an exciting future that wants to do things differently, and we can help you shape and realise your ambitions. You will be able to influence the future direction of the company and work with a talented and dedicated team. This is an exceptional opportunity at a fantastic time, both for the Logika Group business and for our climate change portfolio. Alongside this role, we are also recruiting for someone to lead on our carbon and ESG offering (primarily for the private sector).

The successful candidate will lead activity in these areas:

- Climate policy support, enabling our clients to be at the forefront of the latest scientific and policy thinking, including:
 - Impact evaluation of policies, projects and funding programmes.
 - Assessments and models for carbon emissions and pathways to net zero.
 - Regulatory impact assessments.
 - Input into policy and regulation review and development.
 - Cost effectiveness of climate change abatement measures.
 - Economic analysis.
 - National and city action planning.
- Climate Finance, providing support and advice on environmental and socioeconomic impacts to assist funders and investors in prioritising investments targeted at climate change mitigation and adaptation.

Skills and experience we are looking for

- Postgraduate qualification in environmental science (or related area), economics, law or policy with a minimum of 10 years' experience projects related to climate change.
- Demonstrable experience in a number of areas relating to climate change in the context of a high quality technical consultancy, including identifying, winning and delivering consultancy projects.
- Specific experience of delivery for key clients and funders / clients such as international Governments and their agencies, development banks and philanthropic funders.
- Experience in both the mitigation and adaptation context.
- Broad network of relevant contacts, both UK and internationally, including key partners and networks.
- Excellent communication skills and ability to write clear and concise reports in English.
- Understanding of methods and processes for the development of climate and emissions policy.
- Experience and understanding of international climate frameworks and agreements, as well as relevant legislation.

We particularly welcome candidates with language capabilities in addition to English.

What we offer

We ensure we can support our employees through offering wellbeing programmes and policies that support individuals. These include flexible working, trained mental health first aiders and readily available support through our Employee Assistance programme.

Furthermore, along with a competitive salary, we offer a benefits package which includes an enhanced pension scheme, death in service life cover, an annual wellbeing day and social events and much more.

Logika Group's Equal Opportunities Policy is to ensure that no applicant receives less favourable treatment on the grounds of age, disability, gender, reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

Our Values

Logika Group is underpinned by three clear values – **Community, Collaboration and Professionalism & Integrity** - developed by our staff members to reflect our shared principles, approach to our work and positive company culture.
